

“Feel free to walk a round” Kaddy-Lac Style

Supporting benefits of 3 wheel fleet model cart supplied to members and guests by their private golf club

The Golf Member,

- Is provided with a quality, user friendly, functional and attractive cart that is manufactured to provide many years of trouble free service.

- Doesn't need to purchase and or maintain their own cart.

- Has no storage issues with own cart or the need to haul it in and out of their vehicle before and after each round.

- Receives faster service by back shop attendant. Back shop attendant places member's golf bag on fleet cart versus searching and retrieving individual cart with bag

- Can be assured that their guests will be provided with a quality cart that is representative of the professionally run golf facility they belong to.

- Member is carefree, receiving great service from club staff, playing golf as they prefer.

- The Kaddy-Lac 3 wheel cart saves valuable space and money as compared to the cost of housing personal carts stored in your back shop or storage area.

- All carts can be equipped with the same options enhancing the fleet to promote beverage sales (drink holders) and fairway divot repair (sand/seed bottle holder)

- Revenue generated to the golf course or golf professional from members renting a Kaddy-Lac fleet cart for the season can be charged the same or a lesser amount than the cost of storing their own cart.

- This method of supplying carts to members and guests promotes uniformity of a 1 designed fleet, cleanliness in back shop through interlocking carts in rows. 3 wheel carts promotes faster play by sending cart on its own to next tee and away from golf green.

- Please call us when you have time to discuss the opportunity of this cart and the concept of members use versus storage and handling of personal carts. Let our experience and knowledge of golf carts assist you in supporting your membership with less work and more income. We would be pleased to forward pictures and references at your request. Sincerely,

Bob Watson - President
Wyllie Webb Co. Limited (Since 1946)
